

Bullet

Name: Bullet
Sex: Male
Age: 9 years
Breed: Lab x

Poor Bullet had been with his owner since he was a pup but they were moving and couldn't take bullet so he was surrendered to us at the ripe old age of 9yrs. We were told he is lab x and mainly an inside dog.

He is in the pound waiting for foster and he has won the hearts of all the volunteers that know him. We thought he would be miserable being locked in a pen as compared to being home with his owners but this boy hasn't stopped smiling.

He is so happy to see everyone, he loves going for his walks, he loves spending time outside in the run and still has heaps of energy to run around and behave like a pup sometimes.

He would make a great companion for an active retired couple that wants a walking buddy and house mate. He is just a gem.

Adoption Fee: \$350

All dogs rehomed through WDR are vet checked, desexed, microchipped, C5 vaccinated, flea treated, wormed and registered with Wodonga Council
