

Lilly

Name: Lilly
Sex: Female
Age: Approx 10 months
Breed: Lab Mix

Lilly came through the pound, she is now in care and is just adored by her foster family. They have an older dog and Lilly gets on well with her. She loves cuddles and is pretty lay back. What a little sweetheart this one is! Just a loving and gentle nature about her, with just the right amount of playfulness. Lilly is proving to be very intelligent, and very easy to train.

She already is sitting and waiting on command after only one day in her foster home, and is very gentle when taking food from your hand. Lilly loves to go for a drive, being content to either look out the window or just lay down and go to sleep. She does quite well walking on a lead, and with some more practice at this, she will be fantastic to go for a stroll with! She has not had an accident since arriving at her foster home, and let's you know when she needs to go outside to do her business. For a young pup, she is very clever!

Lilly doesn't really like loud noises at the moment, and is a little bit timid around new people. But when she gets to know you, she doesn't want to leave your side, and is happy to just lay down at your feet and snooze.

So, if you are after an affectionate, sweet, clever (and pretty) little girl, then Lilly may be your perfect match!
