

Lockie

Name: Lockie

Sex: Male

Age: 10 weeks

Breed: Heeler x Brittany Spaniel x

Lockie was given to rescue because the person who bred them wanted to get rid of them. They were supposed to be 8 weeks when we got them but we think that wasn't quite correct. Little Lockie is a great fun little pup. He is quite adventurous and will have a go at anything. He loves to play with his sisters and is great with bigger dogs.

They have a surrogate mum (she thinks she is their Mum) and they have become very attached to her and she is showing them the ropes even though she is only about 9 mths herself. They are not house trained but they will learn easily. They have just ventured outside in the last few days and they love it. They sleep inside at night. He even went into the wading pool on his own. He will need ongoing training and socialisation.

Lockie will be ready for adoption after he has been desexed and had his follow up vaccination. We were informed that Mum was a Heeler x Brittany Spaniel and Dad was assumed to be a Kelpie.

Adoption Fee: \$400

All dogs rehomed through WDR are vet checked, desexed, microchipped, C5 vaccinated, flea treated, wormed and registered with Wodonga Council
