Pixie

Name: Pixie

Sex: Female

Age: 11 months

Breed: Border Collie x

Pixie was surrendered because her family's circumstances had changed and they couldn't give her the care and attention she needed. She now is ready to find her 'forever home'. Pixie is lovely.

She surprises you as at times; she is timid around people and scared of sudden noises and then, other times is very confident.

Once Pixie has gained your trust she knows exactly where you are. That only took a day. She definitely has the gentlest nature.

She is good around cats and children. Sometimes jumps up, but knows to sit or drop down. She is great in the car. Good on lead. At the park she has fantastic recall off lead.

Pixie doesn't bark at night. Ideally she would be better rehomed with another dog to keep gaining the confidence that is in her.

Adoption Fee: \$350

All dogs rehomed through WDR are vet checked, desexed, microchipped, C5 vaccinated, flea treated, wormed and registered with Wodonga Council
